Must be completed during first year at Covenant.

Normally, a minimum combined SAT score of 1100 (sum of the critical reading and math section scores), or composite ACT score of 24 is required for biology majors. Students with lower test scores should consult the biology department chair. The biology major calls for early and extensive counseling of students in order that they may be properly informed of the requirements and aims of the program. All biology majors are normally required to take either the subject GRE, MCAT, DAT, VCAT, or equivalent as a graduation requirement.

Entering freshmen who plan to major in chemistry should plan to take MAT 145. Calculus I the first year. Placement in Calculus is based on a strong high school math background (through trigonometry) which is evidenced by an SAT math score of 600 or ACT math of 25. Students who do not place into Calculus should sit for the Math Placement Exam during Orientation.

Community Development Continued:

2. Sector-Specific Coursework
Students choose to obtain training in specific sectors that can be used to bring further development to a low-income community. Completing the courses in the chosen sector is a prerequisite to embarking on the research internship described below.

Choose one of the following sectors:

Economic Development Sector (9 Credits)
ECO 201. Principles of Macroeconomics .......................................................... 3
One of the following*
ECO 443. U.S. Microeconomic Development Methods or
ECO 448. International Microenterprise Development……3
One of the following:

SOC 250. Introduction to Social Work** .................................................. 3
One of the following:
EDU 222. Educational Psychology, or
PSY 347/SOC 347. Relational Counseling, or
SOC 341. The Family ............................................................................ 3
Child and Family Development Sector subtotal .......... 10

**Students in the Child and Family Development sector may not use SOC 250 to complete the Domestic Foundations Track

3. Research Internships (3 Credits)
All students are required to complete a research internship related to the sectoral component they have chosen. This internship normally takes place after the student’s junior year, during the summer and/or the first semester of the senior year. Department faculty work with students and partners in the field to design, support, and evaluate these research internships, many of which take place in cooperation with the Chalmers Center for Economic Development, a research and educational center housed at the College. Internships may be taken for 3-12 credits, but only three credits may be used towards meeting the requirements for the major, any additional credits serving as electives towards graduation.

CDV students are required to apply for and be accepted into the internship class (CDV 480-481) at least 12 months before the internship begins. This application will include recommendations from the Priesthill Center, Student Development, faculty, and pastor regarding students’ behavioral, emotional, spiritual, social, academic, and physical readiness for an intensive cross-cultural internship. Students will also be reassessed immediately prior to the internship. Additionally, the department can determine the student is not suitable for the internship at any time in this process.

Natural Science Nursing - Dual Degree with CSTCC

2007-2008

1. For those students who prefer to remain at Covenant College for four years and also practice nursing as a registered nurse (having an associates degree in nursing), our dual degree program with a local community college is ideal. After four years of study, the student will earn a BA in natural science from Covenant College and an AAS in nursing from CSTCC, and may take the state boards for becoming an RN in the state of Tennessee. Be aware that this degree is not a BSN, and if the student later decides to become a nurse practitioner (MSN), it would necessitate attending a university with a bridge program (similar to section 3 below).

Natural Science Nursing  
AA Degree in Basic Health Sciences

2007-2008

2. The second option leads to a bachelor in nursing science from a four-year nursing school. Covenant participates in a cooperative program with the Nell Hodgson Woodruff School of Nursing of Emory University, Atlanta, Georgia; and with Trinity Christian College, Palos Heights, Illinois. Other universities have also accepted our students after their two years of preparation at Covenant. By satisfactorily completing two years in the pre-nursing curriculum at Covenant, the student may apply for admission on the junior level to a school of nursing for completion of the Bachelor of Science degree in Nursing. Covenant’s pre-nursing curriculum is planned as much as possible on an individual basis to meet the prerequisites of the selected school of nursing; therefore, it is helpful if incoming freshmen provide their advisor with catalogs from one or two nursing schools that they might wish to attend. If an associates degree from Covenant College is desired before transferring, the student should follow the requirements below.

Natural Science Nursing -
Dual Degree Program with
Vanderbilt University

2007-2008

3. Covenant participates in a dual-degree program leading to
a Master of Nursing Science at Vanderbilt University in
Nashville, Tennessee. The student attends Covenant for
three years and during their junior year applies to
Vanderbilt’s graduate school. After successfully completing
the first two semesters at Vanderbilt, the student would
graduate from Covenant with a baccalaureate degree in
natural science. After another full year and one term at
Vanderbilt, the student would graduate with a master’s
degree with a specialty in adult health care, primary care,
psychiatric-mental health, perinatal nursing, neonatal
nursing, parent, child and adolescent, or nursing
administration. We recommend students interested in this
program have an SAT score of 1100 or better (sum of the
critical reading and math section scores).

Natural Science: Pre-engineering Studies

2007-2008

The core and distribution requirements for a major in natural science, concentration in pre-engineering studies are outlined below. Exceptions can be made depending on the particular requirements of the school to which a transfer is planned for completion of the dual degree program. A GPA of 3.0 for all courses as well as math, science, and engineering courses must be maintained to improve consideration of acceptance into engineering programs.
